

Opção 6: apenas 1 post type e 1 taxonomy

Opção 7: Apenas termos em taxonomy post_type geram posts

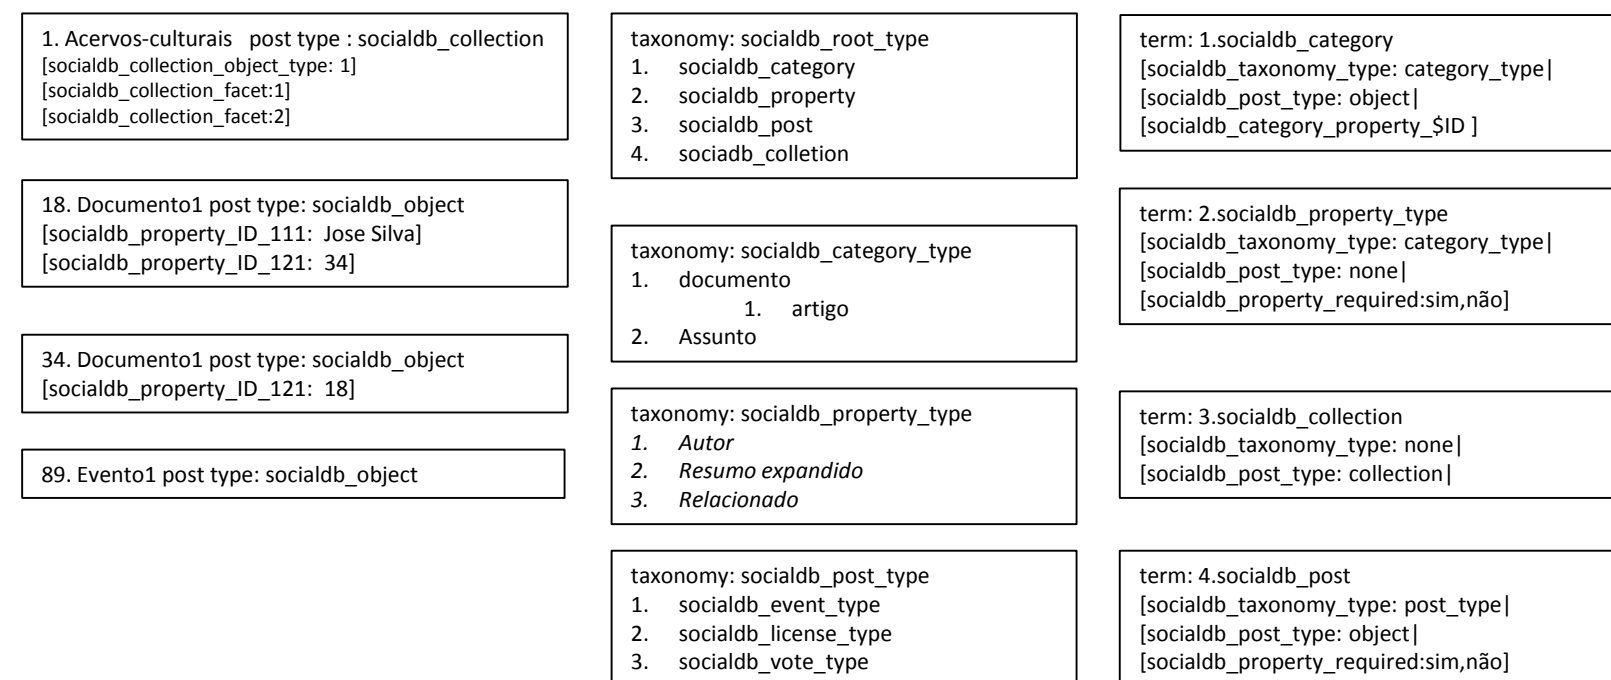

Opção 8: primeiro nível vira post type (exceção property)

Opção 9:

Termos em root geram taxonomias e indicam se os termos da taxonomia geram posts

Nota: em todas as versões, um post vinculado a um termo “herda” as propriedades (metakeys) do mesmo
